Cosy+ for Industrial Remote Access

Cosy+ makes industrial remote access easy and secure like never before!

Provide effective and sustainable support of your machines from anywhere, at any time.

HMS

Cosy+

The new standard of secure remote access, offering multiple connectivity options for successful deployment in any situation

Capitalizing on the success of the Cosy 131, Cosy+ is the latest evolution in industrial remote access, resulting from the implementation of the most advanced security technologies in hardware devices.

The role of the Cosy+ is to establish a secure VPN connection between the machine (PLC, HMI, or other devices) and the remote engineer. The connection happens through Talk2M, a highly secured industrial cloud service.

Benefits of industrial remote access

- **Minimize downtime** through fast remote support
- **Save time and money** by avoiding unnecessary service trips
- Improve the engineers' **well-being and productivity**

State-of-the-art security

- **New** generation of devices with built-in **Hardware Security***
- Proven security posture with **ISO 27001** certification and cybersecurity partnership with **NVISO**
- Machine **LAN segregation** to ensure that remote users can only access the target equipment
- **Local control** of the remote connectivity by the end-user, with an external key switch
- Increase safety with the digital output indicating an **active remote connection**

Easy - No IT skills required

- **Straightforward setup**, to make any machine IIoT-ready in a matter of minutes
- Non-intrusive **outbound connections**, requiring no change on the existing network
- Start immediately with a **free Talk2M account** and reach your equipment in 2 clicks
- **Manage the connectivity** of all your machines and collaborators from one place with the Talk2M industrial cloud service

Successful worldwide connectivity through Talk2M

- **Global** and reliable infrastructure, with an extensive **Service Level Agreement**
- **Scalability**: add at any time as many devices and users as you need
- **Connect from any device**, with the free desktop, web and mobile apps
- **Email & SMS relay** services, to **receive notifications** from your machine
- Traceability of all remote activity through **detailed logs and reports**

* Cosy+ integrates a secure element certified Common Criteria EAL 6+, which provides a root of trust at the IC level and enables robust end-to-end security, from edge to cloud.

Already trusted by over **20.000** customers around the world

Optimarin

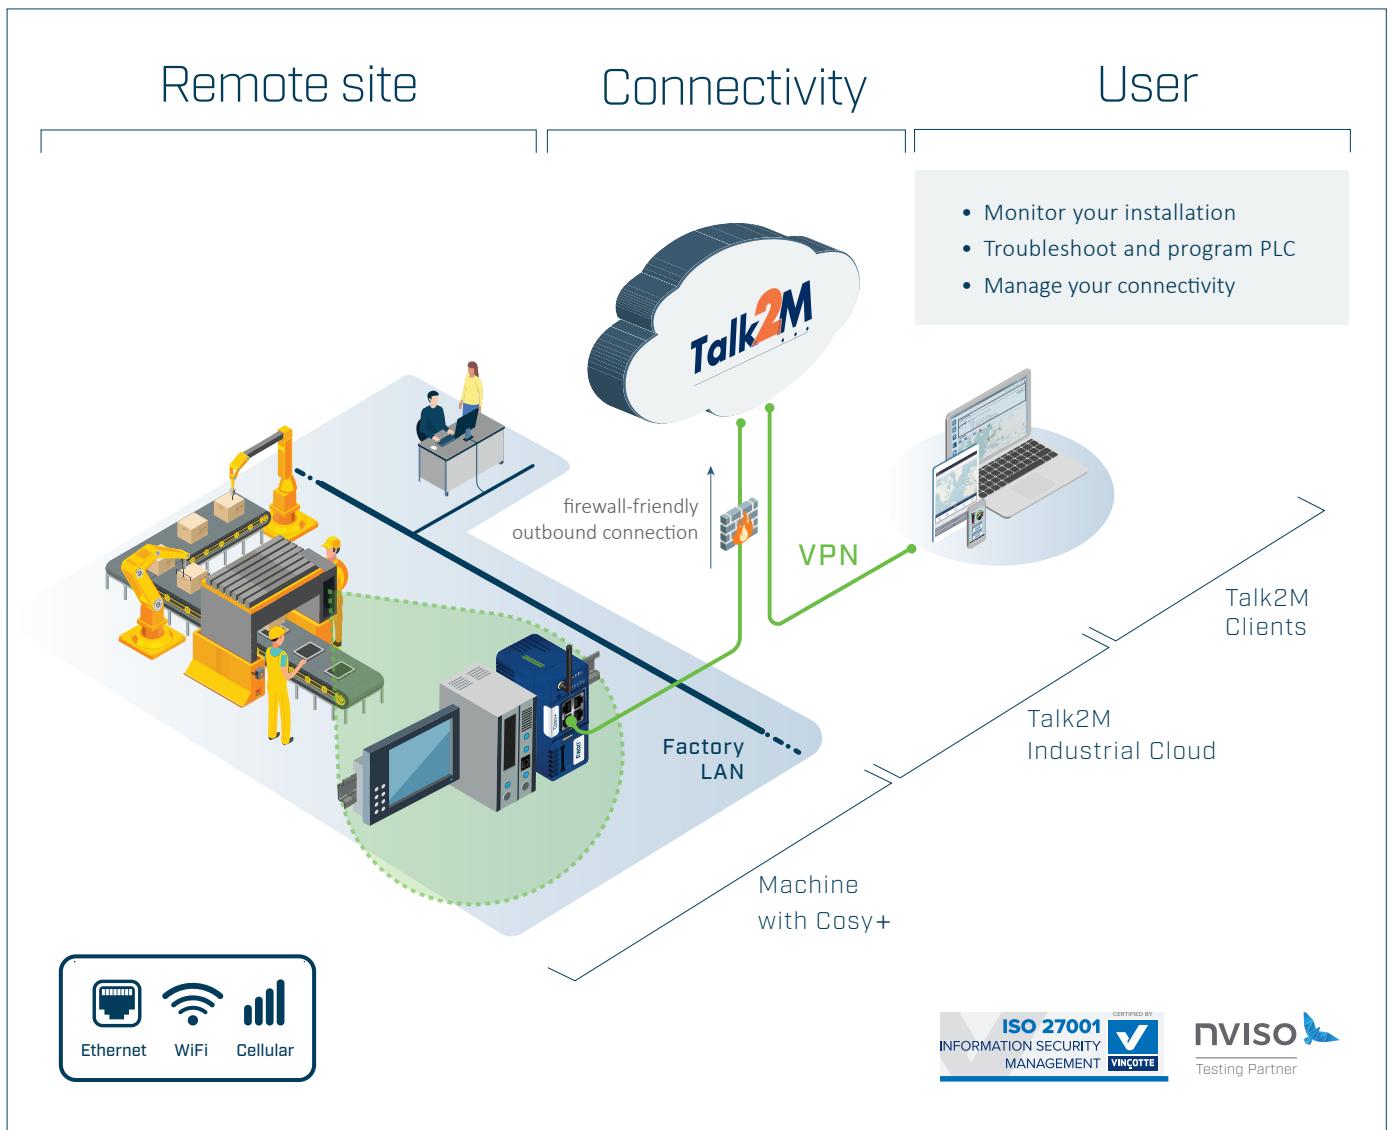

The Ewon Cosy+ is a perfect fit for Optimarin as part of a remote access solution to complement our digital approach. In addition, the Ewon Cosy+ is customizable enough to meet our current and future needs.

Ingve Risa - System Engineer

"After witnessing the power of Ewon's free Talk2M software, we have made Ewon a part of every machine we build. Additionally, installing and enabling the Ewon device is easy and take less than 10 minutes"

Kennedy Larramore - Electrical/IT Technician

Compatible with major PLC brands

Siemens

Rockwell Automation

Mitsubishi Electric

Schneider Electric

Omron

... and many more

The leading industrial cloud service you can rely on, from anywhere in the world

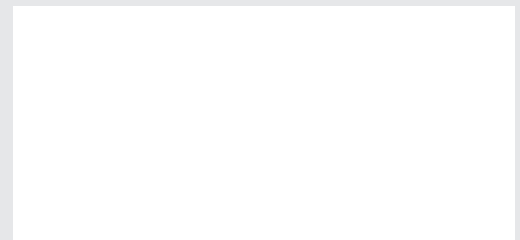

20+ Data centers Worldwide infrastructure	400.000+ Ewon devices registered	178 Countries	40+ Million Secure VPN connections	Talk2M Pro Service with SLA
---	--	-------------------------	--	---------------------------------------

	Ethernet	WiFi	4G Cellular
Cosy +			
Product Reference	EC71330	EC7133J Starter Kit : STKEC7133J	EU : EC7133L NA : EC7133K APAC: EC7133M
WAN connectivity	LAN	LAN & WiFi 802.11 b/g/n	LAN & LTE
Ethernet	4 Configurable LAN/WAN ports		
Input/Output	2x DI, 1x DO		
Power Supply	12-24 V DC +/-20%, LPS		
Temperature range	-25°C to +60°C		
Marking	CE, UL, FCC, IC, UKCA		
Warranty	36 months		
Mechanical, Standards & Directives	Download the Ewon Cosy+ Datasheet from our website https://ewon.biz/products/cosy
